(<http://www.andymark.com/product-p/am-2680.htm>)

Product Overview:

This is a package of FOUR stick-on numbers, designed to be adhered to robot bumper material.

Specifications:

- Quantity: 4
- Material: White stick-on plastic
- Height: 4 inches
- Width: 2.6 inches
- Line width: 0.8 inch
- Weight: 0.004 pounds

Usage (for best application):

- Apply heat to cloth area using a heat gun or hairdryer for 30 seconds (prior to placing number). Do not put heat on or near pool noodles, as they will shrink.
- Place numbers in position on bumper material as desired with pressure.
- Apply heat to numbers using a heat gun or hairdryer for 30 seconds.
- Place under a static load for 5 minutes.

REV Robotics 1 Inch Extrusion, 6ft (am-2901)
(<http://www.andymark.com/product-p/am-2901.htm>)

Price: \$25.00

ADD TO CART (/WishList.asp?

X Remove From Wish List (/WishList.asp? WL_Action=Remove&ProductCode=am%2D2901)

(<http://www.andymark.com/product-p/am-2901.htm>)

Product Overview:

AndyMark is proud to be a distributor for this extrusion and building platform from REV Robotics.

This is the foundation extrusion piece for the new REV Robotics Extrusion Building System. It's a 1"x1" square extruded aluminum tube, with slots designed to fit #10-32 nylock jam nuts. Also, the ends of the extrusion have holes sized to be tapped for #10 screws. The beauty of this system is using these inexpensive #10-32 jam nuts instead of costly, hard-to-get t-slot nuts used by many profile building systems. When attaching 0.09-0.13" thick plates to this extrusion, use #10-32 x 3/8 screws (<http://www.andymark.com/product-p/am-1360.htm>), accompanied by #10-32 nylock jam nuts (<http://www.andymark.com/product-p/am-1211.htm>).

Fastener Usage:

The REV Robotics extrusion uses #10-32 Nylock Jam Nuts. Regular #10-32 Nylock Nuts do not fit this application.

Specifications:

- Height: 1"
- Width: 1"
- Length: 72"
- Material: 6063-T5 aluminum, clear anodized
- Weight: 2.62 pounds

► [more info](http://www.andymark.com/product-p/am-2901.htm) (<http://www.andymark.com/product-p/am-2901.htm>)

REV, 1 Inch Dual Bearing Plate (am-2905) (<http://www.andymark.com/product-p/am-2905.htm>)

(<http://www.andymark.com/product-p/am-2905.htm>)

Product Overview:

Here is a base plate designed to work with the concentric (<http://www.andymark.com/product-p/am-2903.htm>) and eccentric (<http://www.andymark.com/product-p/am-2902.htm>) bushings and V-bearings (<http://www.andymark.com/product-p/am-2914.htm>) in order to make a smooth-rolling linear bearing block.

When attaching 0.09-0.13" thick plates to this extrusion, use #10-32 x 3/8 screws, accompanied by #10-32 nylock jam nuts.

Specifications:

- Weight: 0.25lbs
- Size: 2.75 x 1.25 x 0.25 inch
- Material: 6061 Aluminum
